

MEASURING CHALLENGE

Can you find these items around your house? First, Estimate how much you think is in each container using tsp, TBSP, cups, pints, quarts, or gallons. Then fill up the item with water and pour it into a measuring cup to get the actual volume of each container. Take the challenge to the next level and see what other object you can measure.

ITEM	ESTIMATION	MEASURE OF VOLUME
Bottle 		
Bowl 		
Pan 		
Cup 		
Spoon
